

Youtube Premium

Tired of paying high prices for Youtube Premium in your country? Did you know that you can actually get a cheaper subscription by using a Philippines VPN? It's true as I just got it working here in Germany.

Note: you can replace Philippines with any other country that has a cheaper Youtube Premium subscription, e.g. Turkey, Argentina, etc. [Check the prices here.](#)

First, you'll need to get a VPN from a reliable provider. We recommend checking out [PHVPN](#), which offers super affordable plans and reliable service. Once you've signed up, connect to a server located in the Philippines.

Once you have your VPN and credit card set up, you can sign up for Youtube Premium now. Simply navigate to [the Youtube Premium page](#). You'll be asked to enter your credit card information, which should go through without any issues.

After you've signed up, disconnect the VPN and you'll be able to enjoy all the benefits of Youtube Premium at a fraction of the cost.

One thing to keep in mind is that this method may violate Youtube's terms of service, so use it at your own risk. However, many people have reported success with this method and it's a great way to save money on a service that you use every day. No more ads! Happy streaming!
