

# Better way of translating web pages in your browser so you can learn while you read

Here are the instructions:

1. Install the Chrome extension Immersive Translate  
<https://chrome.google.com/webstore/detail/immersive-translate/bpoadfkcbjbfhfodiogcnhhhpibjhbnh>
2. Save this text to a file, name it something like **settings.txt**

```
{  
  "targetLanguage": "en",  
  "updatedAt": "2023-03-12T20:59:13.922Z",  
  "translationService": "bing",  
  "translationLanguagePattern": {  
    "matches": [  
      "<all>"  
    ],  
    "excludeMatches": [  
      "en"  
    ]  
  },  
  "translationTheme": "dashedBorder"  
}
```

3. Open this page [chrome-extension://bpoadfkcbjbfhfodiogcnhhhpibjhbnh/options.html#import\\_export](chrome-extension://bpoadfkcbjbfhfodiogcnhhhpibjhbnh/options.html#import_export)
4. Import the file you just saved
5. Now, pages will look like this:

mydealz Home Deals Gutscheine Freebies Menü

Suche...

Home > Elektronik > Computer & Tablets > PC Komponenten > Prozessoren > AMD Ryzen

Vergrößern

Neu + 5

Gepostet vor 4 Minuten | Posted 4 minutes ago

**AMD Ryzen 7 5800X3D CPU unter 300€ inkl. Company of Heroes 3**

**299€** ~~309€~~ -3%

3,99€ - **notebooksbilliger** Angebote

Zum Deal ↗

NBBMC25

Über diesen Deal **About this deal**

Da hier jeder Mindstar ein Deal wird, möchte ich gegensteuern im Bezug auf: [mydealz.de/dea...750](#)

Since every Mindstar becomes a deal here, I would like to take countermeasures in terms of: [mydealz.de/dea...750](#)

-> Bei NBB ist die CPU deutlich günstiger mit einer Mastercard-Bestellung (wer keine Mastercard hat Revolut App).

-> At NBB, the CPU is much cheaper with a Mastercard order (if you don't have a Mastercard Revolut app).

Bei Abholung 299€, bei Versand 302,99€!

For collection 299€, for shipping 302,99€!

Notebooksbilliger ist auch teilnehmender Händler bei der Company of Heroes 3 Aktion: [amd.com/de/...dle](#)

Mehr Details unter **More details at:** [notebooksbilliger](#) [Notebooksbilliger](#)

If you can read the original text and the translated text side-by-side, you can learn by reading them both and understanding the pattern.

This also works with the Safari Browser on desktop and iPhones and also the Firefox browser on mobile.
